March 1992

Knox & District Woodworkers Club Inc.

Lost

Lost or mis-placed at the February meeting, one light grey folder with royal blue MBAV insignia on the front. Contains foolscap pad and some plans.

If found please contact Tom Coghlan on (03) 801 8498

Knox Festival

The Knox Festival will be held this year, as in other years, in and around the Ferntree Gully library over the weekend of 14th & 15th March.

The club will be located in a similar position to other years with activities to date including demonstrations using lathes, demonstrations using the Triton Workcentre and the Triton Router Stand and public participation in carving a number of timber posts to be included in the construction of a Pergola at the site of our new clubrooms.

As always there is plenty of activity so come along and join the fun.

Coming Events

March Meeting

Demonstration and Hands-On practical night with a mini lathe, so bring your turning tools and some scrap timber.

Also an Australian manufacturer of tools and lathes will demonstrate his goods.

April Meeting

Box making demonstration

April 28th

Picture framing demo to be held at 184 Through Rd Burwood at 7.30pm. A limit of 30 people applies, so give your name to Alex early to be sure of a place.

May Meeting

Router demonstration and Be-In-It competition.

June Meeting

French Polishing demonstration

July

Auction - please bring along goods for sale.

Club Rooms

Members will be pleased to know that work is progressing well.

The committee adjourned to the new premises for a look during the recent committee meeting.

Further details will be announced at the next meeting.

Triton

The committee, on behalf of all members, would like to extend a hearty thankyou to the **Triton Manufacturing and Design Co.** for their very generous donation of a **Triton Workcentre** and a **Triton Router Stand** to assist the club with it's Community Service role.

Alf Stephens is to be congratulated for his efforts in making this possible.

Members should take every opportunity to support our local manufacturers by purchasing their products where possible. Another form of support that is often overlooked is simple communication.

If you like the product, tell the manufacturer, If you don't like the product, or feel you have some suggestions for improvements, then tell the manufacturer that too.

By letting him know, you are giving him the opportunity to improve his service to you.

ISNT THAT WHAT BEING PART OF A COMMUNITY IS ALL ABOUT?
