Over the last month or so we have had a disturbing number of inconvenient problems with both our 12" Thicknesser and the small Bandsaw. Our equipment Sub-Committee having evaluated the situation recommended at the General Meeting, that the Thicknesser be replaced and an additional Bandsaw purchased. The original Thicknesser was traded in, for a price that virtually covered the cost of the new Bandsaw. The old Bandsaw will be refurbished and kept for use by Club Members. On your behalf, I would like to thank the Equipment Sub-Committee, for a job well done.

My thanks also go to the 10 Members who attended and helped at our Demonstration on Saturday, May 24th at Mitre 10 Rowville. Although there was a poor customer audience, we succeeded in demonstrating the manufacture and assembly of two Pine Coffee Tables, according to the supplied specifications. The Demonstration served a two-fold purpose, (a) fostering a close allegiance with Mitre 10 Rowville and (b) establishing a forum to publicise our Club and its facilities to a wider local Community.

The store manager, while thanking us for our participation, acknowledged that any future repeat event must be preceded by an extensive advertising campaign.

General Meeting 7th May 1997

Dave Howell, on behalf of the Equipment Sub-Committee, declared that the Committee's immediate aim was to purchase a replacement Thicknesser and a further Bandsaw. Paddy McCann in a brief report commended Paul Philips for his dedication in negotiating seemingly worthwhile and mutually beneficial ties with Studpark Mitre 10 and also, after a frustrating period of misunderstandings, a very welcome regular supply of mostly cedar offcuts, which amongst other uses, the Festival Sub-Committee have rapidly fashioned into planter box kits which are in evidence around the workshop.
