Merry Xmas to all Woodies!

**** President's Report – Hughie Gaynor ****

What a busy year The Woodies have had in 2014 and to help the grey matter I have highlighted just a small sample of some of them.

- New Finishing Sander purchased with dust extraction supplied to this machine and a new floor sweep installed in Machine Shop.
- Replacement of a number of hand tools and an additional Pedestal Drill purchased.
- "Be In It" Competition held.
- Knox Festival.
- Upgrade of the Club's facilities – Plaster ceiling installed with insulation with painting undertaken by members.
- Airconditioning and new lighting installed.
- Attic fire-proofed for storing Xmas Toys.
- Large TV screen and upgrade of computer.
- Stringybark Festival.
- Woodworking appreciation workshop for St Joseph's Primary schoolchildren.
- 25th Anniversary Celebrations.
- Christmas Toy presentation.

The above list (there are lots of others that did not make it) have reflected very positively on the Woodies and their activities as a vibrant go ahead Organisation supporting it's members and the community. A great deal of thanks goes to you the members, who, without your ongoing generous support, I am certain that we would not have been able to achieve as much as we have.

Sadly, throughout the year we have unfortunately lost some terrific members, however, I am certain

that their memories will live on as they have left us all a legacy of being great mates and gifted craftspeople who were only too willing to share with all members. I am certain that a great number of you will fondly remember them when you have anything to do with clocks, horses, wood-turning, box making and fund raising.

A great big thanks to Eric Butterfield who has toiled away on the keyboard in the last few weeks updating the revised Safety Procedures and it is expected that they will be available in hard copy in early December. These updated procedures will ensure that your Committee meets it's obligations under a number of mandatory Compliance and Insurance matters in order to do all possible to provide a safe environment for all. As part of maintaining your membership it is expected that all members in due course will take time out to read/understand and sign off that they will abide with the safety procedures contained therein. At the time of writing, details are being finalised for when information sessions will be held.

Please take special note of all the Diary dates contained in this newsletter.

Finally, on behalf of your Committee, please accept our collective thanks for your ongoing support throughout the year, and with it goes our best wishes for a happy and peaceful Christmas and a prosperous and healthy 2014.

...Hughie

KDWC hits FACEBOOK: thanks Jason Wood MP!

The Club's 25th anniversary has been flagged on FACEBOOK. See: <https://www.facebook.com/media/set/?set=a.445494595561547.1073741863.352953834815624&type=3>

****VALE - Bill Longden 11/5/1927 - 5/11/2013****

Another fine long standing member has passed away. Bill has been with the Club since early 1997, and is well known to everyone. It was nice for his close workmate Louis Smith, who finished Bill's Garrett horse on 6/11, to speak so well about the fine upstanding character of Bill - a good fellow 'Woodie' mate around the Club. Bill always had plenty of time to share his UK Paratrooper memories and his tripping around the world in younger days following his being demobbed to Palestine ('49) and travelling UK/Canada/Aust, before settling to the FTG area.

But Bill was always there for the club, at pretty much every festival, selling tickets and helping out. Bill took part in lots of activities including building some of his own projects, and never too bashful to seek and take advice from fellow members. Like so many other terrific members we have, he too had a colourful, interesting and full life and this, I am sure, is what makes the Club a place of comfort to so many who meet the likes of our good mate, Bill. Rest in Peace mate. The Club's thoughts go out to Sheila, their two daughters, and the families of five grandchildren.

**** Mont De Lancey - WSS Festival ****

On 22nd and 23rd Feb 2014, there will be a "Wood Steel and Steam Festival, with one of the parties exhibiting being fellow woodies at Eastern Woodturners. For full details, see flyer at:

**** Wood provided by late Members ****

Doris Ralph, (late) Ron's wife, kindly donated the equivalent to six trailer loads of useful timber to the Club, picked up with the appreciated assistance of Dick Webb, Greg Newman, Hughie Gaynor, Rodney Williams and Bruce Cockerill, and Hurtle Lupton. Also, **Aileen O'Rorke** (John's widow) was visited by Gary Pope and she has donated John's timber. Some of the smaller types of timber which was of limited use to The Club, was donated to Bridges, which is a small voluntary Organisation in Scoresby helping out intellectually/impaired/lonely/marginalised males with supervised small woodworking activities.

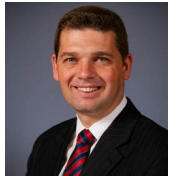

The Club would like to extend to these ladies, their sincere thanks for the timber, which will be put to fine use on projects to benefit the Club.

**** KDWC hits Victorian Parliament Hansard ****

Members will be proud to see the Club's activities have been etched in stone in Victoria Parliament. The 31st October 2013 ASSEMBLY record in Hansard states:.....

Mr. WAKELING - I had the honour of attending the 25th Anniversary celebrations of the Knox and District Woodworkers Club. The Club's facility in Ferntree Gully has served a wonderful community space for many residents in the broader Knox community. For many members, it has proven to be their only link to a community-based organisation. Research has proven that organisations such as the woodworkers club deliver a vital benefit with regard to the physical and emotional needs of many men in our community.

As a footnote, we will record too, that we have a fine set of lady members too! But on a more important note, let's share our thanks to Emily, Nicole and Jo who work alongside our local member, Nick Wakeling, for their terrific assistance photocopying these newsletters - one small contribution they make, which really means a lot to us 'Woodies'

Don't forget: Wed 4th Dec is AUCTION NIGHT!

Empty your man-caves and sheds!
Come early at 6PM for a sausage sizzle and lubricate your bidding and pockets to make this a winner for the end end of year auction. Stan "the auction MAN" Jebb will help relieve your wallets again!

**** Annual Toy Appeal provides 500+ toys****

Gordon Veraswami and **Jenny Keating**, from St. Vincent de Paul were presented with a magnificent collection of wooden toys again this year, at the November Member's meeting.

They, along with Knox Infolink, will ensure those children in the area, less fortunate this Xmas, will still receive a fine toy. **Zillah McLaren** (K.I.) rang to send her profound apologies for not attending the general meeting, however expressed her gratitude for the toys. Both these organisations do a great job to help the community.

**** Toys Galore! ****

The Club is always keen to help with the good work that such organisations provide in the area.

.... **[Ed]**

**** Some Toymakers at Work! ****

The Club's hard work building toys, has made it into the local FTG news too. See Pg 6, Dec 2013: <http://ferntreegullynews.com/>

**** Crime Victims Association ****

Again this year, **Bev & Noel McNamara** of Crime Victims Association had a clock presented to them to raffle for gaining proceeds to help their cause, and Noel spoke and thanked the club.

**** Kind Donation from Bendigo Bank ****

Our President, Hughie, thanked John Surridge and Bendigo Bank for their generous support over the year without which we would not have made so many toys. Another good example of the community helping the community.

Workshop Notes - "members helping members"**Box Joint Jig***(yet another practical article By [Phil Spencer](#))*

Box joints add a professional touch to your projects, they can be cut on a table saw with a dado blade or with a router in a table with a straight bit. Generally the thickness of the material and the width of the tails are the same, they should be cut slightly deeper then trimmed for a perfectly flush fit.

Instructions To Make: Set up dado head to width and depth required, depth should be slightly deeper than width. Use any 3/4" thick material for backer guide, it should be approx. 4" wide and 12" long. Cut the first notch through the backer guide. Note the holes in the miter gauge, they will be used to fasten backer board to it, if yours doesn't have holes drill them now before you proceed.

Cut key stock to fit in the notch, cut enough so that you will have two lengths, one about 3" long the other about 6" long.

Fasten the short key in the notch, move backer guide forward to almost touch dado blade, place second longer key between the short key and the outside edge of tips on dado blade. Clamp the backer board to miter gauge.

Using scrap material wide enough to cut several notches and the same thickness as good material follow directions below and cut two test pieces to check the fit of the joints. If they are too tight or too loose, undo the clamp and move the backer board to compensate. When you are happy with the fit attach backer board to miter gauge with two screws.

To cut the outside tails start by placing material against key for first cut, clamp, cut the first notch, then move material over with the key in last notch cut. Always use the clamp to hold material in position for every cut.

To cut inside tails start by placing outside tail stock notch over the key, then butt inside tail material up to it and clamp to backer board. Remove outside tail stock, make cut and continue cutting notches as above.

*...Phil******* Humor ******

A London lawyer runs a stop sign and gets pulled over by a Glasgow copper.

He thinks that he is smarter than the cop because he is a lawyer from LONDON and is certain that he has a better education than any Jock cop. He decides to prove this to himself and have some fun at the Glasgow cop's expense!!

Glasgow cop says, "Licence & registration, please."

London Lawyer says, "What for?"

Glasgow cop says, "Ye didnae come to a complete stop at the stop sign."

London Lawyer says, "I slowed down, and no one was coming."

Glasgow cop says, "Ye still didnae come to a complete stop. Licence and registration, please"

London Lawyer says, "What's the difference?"

Glasgow cop says, "The difference is, ye huvte come to complete stop, that's the law, Licence and registration, please!"

London Lawyer says, "If you can show me the legal difference between slow down and stop, I'll give you my licence and registration and you give me the ticket. If not, you let me go and don't give me the ticket."

Glasgow cop says, "Sounds fair. Exit your vehicle, sir." The London Lawyer exits his vehicle. The Glasgow cop takes out his baton and starts beating the living daylights out of the lawyer and says, "Dae ye want me to stop, or just slow doon?"
